BIG NEWS FOR RAILROADS
B. and O. RAILROAD OWNERS. Wall Street new railroad stocks are sailing into the air yesterday.

The Supreme Court decides in favor of the St. Louis & O'Fallon Railroad against the Interstate Commerce Commission valuation.

This may add billions to the values of United States railway stocks.

The happy day of the Wall Street bear is postponed once more.

At Riverside, a suburb of Chicago, citizens like cats and birds that do not like each other.

A local ordinance now compels owners to not bells around their cats' necks to warn and protect birds.

Cats without bells will be executed.

Those that like birds and cannot do without cats will adopt the idea elsewhere.

If acquired characteristics can be inherited, as undoubtedly they can, after some generations cats will eat up on the birds without ringing the bell until the final spring.

Seven suicides in New York city yesterday. A private soldier killed himself and his wife with her approval. They seemed to live together in Uncle Sam's service; they would not live apart.

The wife wrote to friends, "We are going on a long journey." How long is that journey?

Benjamin Dave Dow, mechanic, 25, jumped from a roof, leaving his wife puzzled.

Adèle Sarceni, wife of a laborer, jumped from a window at 1:30 in the morning, leaving her husband and two sick children.

Another young wife, Mrs. Lillian Levens, 27, drank poison on her way to the hospital.

A man, "who nobody knew" crawled out on the tracks of the elevated railroad and lay down. A train came and hit him. This suicide took seven lives yesterday. Flying took seven on Sunday.

But on Sunday and Monday, hundreds of thousands of new human beings were born. Nature fills the empty places.

From sea level to the top of Pike's Peak is 14,000 feet. And Ben Williams, who comes from Rio Hondo, Tex., will push a peanut from the bottom all the way to the top of the peak.

Ambition takes many forms. Including this strange form. In India, a man sits on spikes on high columns. Sometimes they make a way to roll on the top of the columns, and sometimes to some holy shrine. Good Americans can sit on flagpoles.

Trailing a peanut to the top of Pike's Peak, using an anchor as a toehold, fastened to the peak, is a novelty.

Novel also is the frog jumping contest at Angels Camp, Cal.

A frog named Holloman won the annual national jumping contest yesterday, covering four feet in one jump.

It is not entirely foolish. An angel camp, once a famous gold producer, attracts 20,000 visitors a year to see the frog jump. They spend money. Those frogs could never guess why they are produced and goaded into desperate jumping.

They know as much, however, as we know about their activities.

The Kentucky Derby was won by a small race horse named Clyde Van Dusen, weighing only 88 pounds, called by reporters "an equine mouse."

The equine mouse had Man-o-War for a father, and for that father it got energy enabling it to beat out into the lead of other horses for a mile and a quarter.

Some rich men leave sons that are milder mice.

Nature attends to that to prevent a race of super mice. The rich father's money holds the son back.

Lord Rosbery, 82 years old, died at Epsom, England, yesterday.

He was educated at Eton and at Christ Church. "The house of Lords," he said, "is a house of fools." His motto was Queen Victoria's maid of honor, "I am a fool." He was said to have declared that for real success a Britisher should win the Derby, be prime minister and possess wealth.

He won the Derby, was prime minister, and, marrying Hans, lost his wealth. He died a pauper.

But it takes more than the Derby and the premiership and race to keep a man alive in the minds of men. Lord Rosbery will soon be forgotten. His "Napoleon: The Last Phase" is worth reading.

PUNISHMENTS

WAS CRIME UNTIL CRIME CAUSE IS FOUND, SAY EXPERTS

Education and Opportunity Only Remedy For Crime, W. R. Hearst Tells Commission

Judge A. C. Backus,

American Crime Study Commission,
Stevens Hotel, Chicago, Ill.

There are two influences which cause crime—heredity and environment.

There are two influences which determine human character—heredity and environment. There are two influences which determine practically EVERY ACT AND IMPULSE OF HUMANITY—heredity and environment.

We cannot afford HEREDITY; that belongs to the PAST. BUT WE DO NOT HAVE TO WAIT AN HOUR in order to determine environment; that belongs to the PRESENT.

I mean the influences of heredity are active once the individual has been brought into the world.

There may come a time when we will understand the principles of heredity better than we do at present, and when we may be able scientifically to prevent mis-mating and the consequent inheritance of evil or undesirable traits and characteristics; so that then, in a sense, questions of heredity may be determined before the child is brought into the world.

BUT WE DO NOT HAVE TO WAIT AN HOUR in order to be able to improve the surroundings and circumstances, the ENVIRONMENT, which is the second great creator of character.

And when I say second I do not mean second in importance, but merely second in sequence in the development of this argument.

To my mind, environment is immensely more important, in nine cases out of ten, than heredity in the creation of character and the determination of the career of the individual.

In a previous article I illustrated what I mean by saying that if twin babies had found their way into a foundling asylum, and one infant had been taken out of the asylum by a reputable family and brought up in a reputable environment, it would be all likelihood become a reputable citizen.

If, on the other hand, if taken out of the asylum by a family of criminals and brought up in a criminal environment, would undoubtedly come to think and act as a criminal.

It would certainly be most unusual if a child subjected to reputable influences should become a criminal, and a child subjected to criminal influences should become a reputable citizen.

The lesser influence of heredity and the greater influence of environment can be illustrated in a larger and more dramatic way.

Americans and Australians were populated in their very earliest stages, in great part, by elements which were considered more or less undesirable in the older countries of Europe which these elements voluntarily and adventurously left, or from which they were forcibly exiled.

And yet these countries have become the most progressive in the world, the most highly developed in intelligence throughout the mass of the people, and in the main the most moral and the most consecrated to the highest ideals of the high civilization.

What has become of the descendants of the irresponsible adventurers, the seapower sons, the bond servants, the redemptionists, and the indentured maidens, the undesirable, and even the criminals, which made up—not all, of course, but nevertheless a considerable part of the earliest emigrants to these virgin countries?

They have become the leaders of the thought of the world, the vanguard in the march of progress, the inspirers of liberty, the creators of national prosperity, the sponsors of universal education and enlightenment.

THE IRRESPONSIBLES HAVE BECOME RESPONSIBLE for about all that makes life worth living.

THE NARROW-MINDED BIGOTS have given to this country and the world freedom of speech, freedom of thought and action, and religious liberty.

THE CRIMINALS have helped to establish even-handed justice and equality before the law.

What has become of heredity?

The influence of heredity has been modified by environment and liberalized by opportunity.

Those elements which got away to a bad start because of HEREDITY have nevertheless come to a glorious finish because of EDUCATION and OPPORTUNITY.

The environment which has improved conditions in these two great countries to the point to which they have been improved can make more nearly perfect conditions through a more nearly perfect environment.

The education and opportunity which have created the greatest people in the world can make these people greater still.

The education and opportunity which transmuted certain undesirable elements into estimable citizens can transmute other undesirable elements into estimable citizens.

The great solution, and, as far as I can see, the only sure solution, is MORE morality and less criminality. IS EDUCATION and OPPORTUNITY.

Education and opportunity have caused progress and prosperity and have created mental and moral enlightenment among our people; and if we want MORE progress and MORE enlightenment, MORE morality and less criminality, we must have more EDUCATION and more OPPORTUNITY.

Very few criminals are criminals from choice.

Most of them are criminals through force of circumstance.

There, but for the grace of God, go I," said John Bunyan as he saw a man being dragged to the gallows.

Have you who are assembled here today to investigate the cause of crime ever gone through the crowded slums of a great city, and wondered how good, how noble, how honest, how pure, how fine, how decorous or even how decent you would have been if you had been raised in that environment?

I hope you would have survived the environment, and risen triumphant above it; but I do not believe I would have.

I do not believe you can have.

Evil environment CREATES criminals.

Evil education CONFIRMS criminals.

Lack of honest opportunity makes criminal opportunity seem the only course.

Perhaps you will say that in these days of prosperity there is honest opportunity for everybody.

And yet one of the greatest heroes of the World War, one of those noble and courageous individuals whom we praise most, and possibly sincerely admire most, had to pawn his medals to keep alive.

So, if opportunity was lacking for this good man and noble character, perhaps it did not after all rush headlong at every youth raised under the discreditable and discouraging environment of the slums.

And when there is no sufficient education and no sufficient opportunity for a youth raised in that environment, what is he, with his limited knowledge and his slender chances, going to do in the world?

The underdog has not to be beaten under by the hardness of his fate, the more likelihood there is that he will become a daring and dangerous criminal.

The qualities of courage and resourcefulness which make a successful criminal might, if properly directed and developed, make a successful honest man.

We have a vigorous, courageous, independent, energetic, ambitious race of men here in America. We have virile youth, determined to get along some way, honestly or dishonestly, according to their education and opportunity.

It is the duty, and indeed the advantage of us reputable American citizens, who have the power and the numbers to control circumstances, to see that this virile youth has the RIGHT education and the RIGHT opportunity, to make GOOD CITIZENS out of them and not CRIMINALS.

Environment and heredity control character.

In fact, environment will do more; it will not only control character: IT WILL CONTROL HEREDITY.

It has done it in individuals, it has done it in nations in the past.

It will do it today.

WE can control environment.

So the solution of the whole criminal problem is in OUR HANDS.

Education and opportunity will ELIMINATE criminality.

It is for the people of the United States to provide adequate education and opportunity, and to create honest and able American citizens where criminals now grow.

It was because of this threat that "Lindy" took her to North Haven, Me., on a suddenly-planned trip Saturday, with her sisters, Anne and Ethel, and her mother, Mrs. Dwight W. Morrow, and the whole family is now under heavy guard on the island.

OTHER SIMILAR NOTES

The man believed responsible for the threatening missive is said to live in Dedham.

Three prominent Boston society women have received similar threats, and with instructions to leave money in the wake of them.

It was learned today that Mrs. Curtis Gould, widow of the former Governor, Mrs. Lutz Anderson, widow of the former ambassador, and Mrs. Charles Sumner, widow of the late Walpole manufacturer and former Pullman passenger, had all received such threats.

The author of the note to Mrs. Morgan threatens her with a "fatally" look back to North Haven, Me., on a suddenly-planned trip Saturday, with her sisters, Anne and Ethel, and her mother, Mrs. Dwight W. Morrow, and the whole family is now under heavy guard on the island.

JUDGE PUZZLED IN CHECK CASE

When it comes to writing checks Roger Upham of Newburyport stamps all comers, even judges and police officers.

Arrested on charges of passing worthless checks by Special Officers Robert Lynch and John McCarthy, he was arraigned today before Judge Duff. The court was puzzled by the number of checks exhibited and remarked:

"It seems to me some of these checks are the original worthless ones, some are made out for restitution and others are not clear to me."

The officers admitted there was much uncertainty, so Judge Duff suggested continuing the case for a month for further investigation.

"We are agreeable," said Officer Lynch, "but I would suggest that your honor instruct the defendant to tear up his check book, so that he can write no more."

Auto Is Driven Through Billboard

Joseph A. Burgess of Somerville was fined \$100 in a Charlestown court, today, for operating an automobile while under the influence of liquor, after police testified that he drove the machine over the sidewalk and through a billboard at Rutherford ave. and Washington st., Charlestown.

ARREST 200 AT NEW BEDFORD STAG PARTY

New Bedford, May 21.—More than 200 stag party guests, mostly from New Bedford, were arrested early today at an Acushnet hall, where, according to police, three Boston girls had staged a dancing performance in scanty attire.

A fleet of auto trucks took the prisoners to the New Bedford lock-up. The girls escaped, but the authorities claim to have their addresses. Warrants are to be sworn out for them.

Just before the officers swooped down on the gathering, a fist battle started outside the hall. Approximately 200 of the spectators quit the dance exhibition to see the fight.

Barry, the latter serving sentence for the Jesse Livermore jewelry robbery on Long Island, was sent to State Prison to serve for three and one-half to five years, for carrying concealed weapons.

He was one of three gangsters involved in the shooting of Patrolman Joseph McCormick in Greenwich in 1927. McCormick lives but is almost helpless.

70 Days in Coma

Marjorie Dowdy, 10, of Lynchburg, Va., is shown in Associated Press photo after she had regained consciousness from a coma lasting 70 days. Her parents kept a bedside vigil, which lasted 1680 hours. Physicians consider her recovery remarkable.

HIT-AND-RUN DRIVER KILLS MAN

Fatally injured by a "hit-and-run" automobile, which police assert was traveling at a terrific speed through South Boston, an unidentified man was left by the side of the road on Dorchester ave. A police dragnet has been spread for the operator.

The victim was found in front of 222 Dorchester ave. by Patrolman John J. Blake of the Athens station, and rushed to the City Hospital. He was dead on arrival.

Examination of the scene of the accident indicated that the man was hurled many feet before he struck the curbstone. The body is now at the Southern Mortuary awaiting identification.

The victim is described as about 42 years of age, height, 5 feet 8 inches, weight, 155 pounds, medium complexion, brown hair, blue eyes, smooth skin.

He wore a gray cap, black mitt, dark gray sweater and brown shoes.

Sunken Sub Raised With Crew All Safe

Colon, Canal Zone, May 21 (AP).—For the first time in the history of the United States Navy a submarine and its crew has been raised from the bottom of the sea.

In Panama bay the S-11 went down to a depth of 87 feet, was found by the submarines S-12 and S-20 and was raised by the rescue ship Mallard a few hours after going to the bottom.

HOOVER SEES NO RAE JUMP RAIL RISING

Washington, May 21 (AP).—President Hoover is confident that no increase in railroad rates will result from the decision of the Supreme Court in the St. Louis and O'Fallon case.

This statement was made at the White House today in reply to inquiries of newspaper correspondents.

The Chief Executive did not explain upon what he based his confidence, confining himself to the one sentence statement.

Pennsylvania Will Not Boost Rates, Says Attorney

Philadelphia, May 21 (AP).—The Pennsylvania Railroad has no thought of requesting any general increase in rates, said W. W. Alberry, president of the Pennsylvania, today, in reference to the Supreme Court decision in the O'Fallon case.

Washington, May 21 (AP).—Daniel Willard, president of the Baltimore and Ohio, said today that in his opinion the decision of the Supreme Court in the O'Fallon case and O'Fallon rate case would have no effect whatever on railroad rates.

SOLONS' WAGE RAISE VETOED

Continued from First Page.

with my work I had only \$124 a week left, with which to support my family. I tried to obtain a job at the end of the legislative session but failed, as employers do not wish to engage persons temporarily."

ALLEN'S MESSAGE

In his veto of the measure Governor Allen said the increase would total \$141,000 and that members of the House of Representatives know what their salary was to be when they ran for office.

Pointing out that the increase would amount to 23½ per cent, and be retroactive from January 1, the Governor declared it would mean an additional appropriation of \$141,000 annually.

"No such sum is available or present estimates in the current budget," the message continued. "Therefore, if the bill becomes law it will be necessary to find a sufficient sum out of the general estimates to cover the cost involved."

The members of the present legislature sought and accepted office with the knowledge that they would receive a salary of \$1000 per year. In addition to their present compensation, the members receive four dollars and twenty cents a mile for travel.

WOULD SHAKE CONFIDENCE

"No other branch of our government enjoys the privilege of fixing its own compensation. It is an instance where the members of the legislature must act for the public in a matter in which they, the members, are personally interested."

"I believe if this measure became law the confidence of the public in their chosen representatives would be shaken."

SENATOR IN GENERAL COURT

is entirely voluntary. It is an honor and distinction which senators would be reluctant to accept. The office should be sought not so much for the salary the position pays as for the opportunity to render service to the public.

Our legislative sessions have been of shorter duration during the last few years, averaging not over five months, and in 1927 the session lasted only four months. During which period the House of Representatives was actually in session seventy-eight days.

ADMIT SUFFICIENT.

"I questionably there are members of the general court who serve at a sacrifice. Recognizing the principles and traditions which have influenced the public men of Massachusetts in the past, they have been ready to devote themselves unflinchingly to the service of their government, deriving part of their compensation in the satisfaction of work well performed."

Red Pimples on Neck and Arms Very Itchy. Healed by Cuticura.

"My neck and arms broke out with little red pimples that were very itchy and looked terrible. When I scratched them it caused the trouble to spread and the pimples scaled over. They looked so bad that I would not go out or let anybody see me. I lost much sleep. I tried other ointments and soaps but nothing seemed to help me and I was discouraged. I read an advertisement for Cuticura Soap and Ointment and purchased some, and after using two boxes of Cuticura Ointment and one cake of Cuticura Soap I was healed." (Signed) Mrs. Helen J. CONSUL'S WIFE IS DEFAULTED IN COURT

Mrs. Maria Dominguez, 30, of Lewis rd., Belmont, wife of the Mexican consul to Boston, arrested for the larceny of a \$14.50 dress from a department store, was defaulted in Municipal court today when she failed to appear.

Her husband, Rafael Dominguez, who police said protested they had no right to arrest the consul's wife, was present and arranged for her appearance tomorrow at 9:30 a. m. Special Officers Robert Lynch and Herbert Dwyer of Division 2 arrested Mrs. Dominguez, who when booked was found to have \$50 cash in her possession. According to the police her husband arrived at the station and demanded her release, first on the ground that she did not steal the dress, and second that as the wife of the Mexican consul she was immune from arrest. It was informed that his appointment as commercial representative of his country did not give him or any member of his family the right to violate the law. The consul arranged bonds for his wife, and she was released. When her case was called today she failed to appear and was ordered defaulted.

TALE OF A SHIRT THAT WRECKED TRAFFIC

Fall River, May 21—Believe it or not, but a soiled shirt was the cause of a whole lot of excitement in Main st. today.

George W. McFall of Miami obliged his host by taking a shirt downtown to have it laundered. In front of Mechanic block his car balked. He got out to crank it, forgetting he had left it in gear. The automobile suddenly charged. McFall's leg caught in the fender and soon he and the unruly machine were speeding down the street, headed straight for the busy intersection of North Main and Central sts. The fender picked up a manhole and tossed it on the sidewalk at the foot of startled pedestrians. Proceeding, the front fender then engaged the rear fender of a parked coupe, spun it around and hit it on its car trunk. Two frightened women, one carrying a baby, stepped from the coupe and dashed for safety. One was Mrs. Albert Pileau of Norwood at the other Mrs. Jennie Lassonde of Middle st., owner of the coupe. It is difficult to predict what might have happened if the driverless car had not come to grief against a cast iron pole.

WHERE RATTAN "HIT"

Twelve-year-old George Brooks of 246 Market st., Brighton, showing his mother, Edna, the welts which, he says, were raised on his arm by a rattan for an infraction of the rules of Bennett school. (Staff photo.)

MOTHER ASKS SCHOOL PROBE OF 'BEATING'

Mrs. Edna Brooks of 246 Market st., Brighton, who charges that her son, George, aged 12, was beaten by Sub-Master Edson Ford of the Bennett school yesterday, declared charges, threatened to put her son to return to school until the affair is investigated by the school committee.

She further declared that if Trust Officers Owens, who she charges, threatened to put her son in a reform school, comes to her home asking George, she would put him out.

According to Mrs. Brooks, George had violated a rule of the school by running in the yard, where there were many small children.

George, according to his own story, pulled back his hand when Mr. Ford tried to strike it with the rattan. When George persisted in drawing his hand back, Ford, he charges, struck him on the arms and legs.

Mrs. Brooks showed a reporter black and blue welts marks on George's left arm.

"There are also marks on George's legs," the mother declared. "I want to the school," Mrs. Brooks continued. "Mr. Ford said he was very sorry that the affair happened, but that he had hit him. It had taught George a lesson."

At the Bennett school today Mr. Ford declared that he had nothing to say, and that he considered the matter as closed.

WATERTOWN IN GINGER ALE MEN ROW OVER PARK FIGHT DRY RULE

Division over a bill to authorize Watertown to use a portion of Saltonstall Park for the purpose of erecting an administration building broke out today at a hearing before the legislative committee on towns at State House.

G. Fred Robinson, former selectman of the town, under to limited form of town meeting, approved an appropriation of \$10,000 for drawing up plans for a building, they later rejected an item in the warrant making a further appropriation of \$20,000 for such a building.

He said he personally looked with reluctance on any plan which would encroach on public parks for building. He reminded the committee that it is a costly thing to acquire such open space for recreation purposes.

Hats embodying style, character and comfort.

No type of hat adds so much to the personal appearance as a properly selected straw hat.

A half century of specialization in fitting high grade hats to discriminating wearers qualifies us, in an especial manner, to give advice in the selection of this type of hat.

A Store That Represents the Attainment of An Ideal

For seventy years the present owners of Collins & Fairbanks Company and their predecessors have represented the accomplishment and steadfast maintenance of an ideal, which was more or less unusual in merchandising circles at the time of its inception.

Two young men, starting in business, conceived the idea of a store devoted to two things; the distribution of hats of fine quality and distinctive character, and the offering of a personal service to customers that would create lasting good will.

A rigid adherence to this policy has resulted in the firm establishment of the present-day organization of Collins & Fairbanks Company, which, it is universally conceded, occupies a unique position among the business concerns of the city. So much so, in fact, that, some time ago, that noted author and observer of American life, Booth Tarkington, recalled Collins & Fairbanks Company's hats as one of the outstanding features which placed Boston first among American cities in well-dressed men, being unsurpassed even by New York's Fifth Avenue.

The inevitable results of such a policy have been the creation of a numerous and loyal clientele which relies implicitly on the representations of the firm, and a continually expanding business which brings orders, not only from all parts of the United States, but also from many foreign countries, showing an abiding faith in the character of the concern.

While additions have been made to the store and new but related lines of merchandise added, there has been no swerving from the original plan of quality and service in the highest degree. Whether the articles are men's hats, coats or ties; whether they are gloves, umbrellas or walking sticks; quality is the predominant feature.

The ladies' department is conducted on the same basis. Only those coats and furs are carried which can stand the most rigid tests of quality and workmanship, while the millinery department, specializing in hats of superior quality, has made an enviable reputation for itself.

Discriminating buying brings to the customer all that is best in the domestic field while importations from the leading foreign producers give the added opportunity of making a selection that will satisfy the most sophisticated.

Kirk Silver

In 1815 Samuel Kirk, a silversmith of Quaker ancestry, went to Baltimore and opened a small shop. Since that time Kirk Silverware has always been produced under the personal supervision of a descendant of the founder of the house practically trained in the art of making fine silver in both flat and hollow ware.

It is with great pleasure, therefore, that we announce that we are the exclusive representative in Boston for this famous and beautiful silver.

We will be glad to show our splendid display of Kirk flatware and hollow ware. The designs offer a wide range of choice in both the flatware and the hollow ware, ranging from utter simplicity and purity of design to those of elaborate and exquisite decoration. The weight of every piece is unusually heavy and the prices are unusually reasonable.

Kirk silver will please the bride of today and continue to give her lasting pleasure and service.

Big Antiques and Little Antiques

To the larger antique pieces in my galleries I have called attention in previous advertising.

I desire to mention now the smaller objects, prized by the collector, sought by the decorator and liked by everybody interested in the craftsmanship of former years. I refer particularly to glass, silver, china, needlework, prints and other objects of art—all of which make desirable gifts at small expense.

NORRIS DEMANDS NEW POWER TRUST PROBE BY GOVERNMENT

'FREE PRESS IS MORE VITAL THAN FREE NATION'

Continued from First Page.

"There probably were others. A real investigation may even show that every newspaper in the United States has had an offer to sell out to the power trust."

CITES HIS EVIDENCE

Norris read into the record a telegram from Ira E. Copley, owner of a string of western newspapers, saying some of the Norris' charges. Copley specifically denied a charge that he had sold \$500,000 of securities to public utilities after having published a statement in his paper that he had "no connection with any public utilities anywhere."

Norris also read a telegram from an unnamed Los Angeles friend who charged Copley had financed the purchase of San Diego papers by finding a bond issue through W. W. Armstrong & Co., an Aurora (Ill.) firm, used by the "Samuel Insull power interests for like purposes."

Norris characterized this firm as an Insull company and said the Insull deal was "a matter of investigation by the Federal Trade Commission."

gation by the Federal Trade Commission.

"Copley in his telegram termed the unnamed writer a 'plain common man'."

"I have sold every share of stock I ever owned," said Mr. Copley's telegram. Norris said he would join with Copley in requesting the Federal Trade Commission to re-investigate the whole proposition.

MASKED FACED

The senator paid his respects to power trust activities in California. He charged the Greater California League and People's Economy League, though having "beautiful names," were the "power trust wearing false faces."

"When some of us charged here in the Senate a little while ago that there was a power trust, we were laughed at," he declared. "But now on the basis of the revelations by the Federal Trade Commission we may justly say: 'I told you so.'"

"We were denounced as dreamers. They denounced us as Bohemians, looking against the best interests of our people. Now we know the world story from their own lips."

"The power trust mean while does not forget anything. They are not losing looking after the little boys in the cradle. They take care of everybody. They follow every movement of the power trust in the country as well as national elections."

"They not only bought great newspapers in Boston and other parts of the country, but they come out into Iowa and they buy men who are running the village elections for councilmen, in order to meet."

Octopus Is Killed by Three Men in Battle at Sea

San Mateo, Cal., May 21 (AP)—

—How three men in a small boat fought a sea battle with a 15 foot octopus was told here by Earl Small, Charles Stone and Robert Hahn of this city. The octopus was placed on display in a sporting goods shop.

Small said he looked the octopus while fishing 15 miles at sea. The combined strength of the three men was required to bring the monster to the surface.

Knives, boat hooks and gaffs were used in the battle.

defeat the man who stands on a platform of lower electric light rates.

LONG LIST OF CHARGES

"The power trust goes into every kind of activity. If it is a metropolitan paper, they undertake to devise ways and means by which they can buy it. If it is a little country newspaper, they go into the local utility field to get it."

Among the charges made by Norris, which he supported by records of the Federal Trade Commission's inquiry or by other records, were that:

INTEREST CONCEALED

The power trust tried to buy the Cleveland Plain Dealer and the Boston Post, offering \$200,000 for each.

A \$400,000 fund was set aside for the purchase of other newspapers and that eleven papers were bought outright while loans were made to two more.

Some of these bought newspapers had the power trust interest when making ownership returns to the Postoffice Department.

PADLOCKS ON 4 SOMERVILLE BUILDINGS

Four buildings in the Brickbottom section of Somerville were padlocked today by Middlesex county officials by Dist. Atty. Robert A. Bushnell.

Six other buildings, against which the courts have issued padlock injunctions, will be padlocked on June 7. The period of closure in all cases is for one year.

In the official group which lacked the padlock notices to the doors were Asst. Atty. Frederick A. Crafts, Deputy Sheriff J. Fiske Ford, Lieut. Charles J. Sharry of the Somerville police department and Serg. Martin W. Joyce and William J. Puzze of the state police.

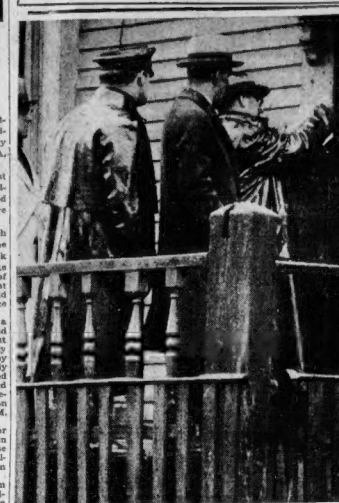

The buildings closed were a dwelling on Medford st., owned by Maria M. Stettin and at present unoccupied; a one-family house on South st., owned by Joseph J. Lazzari; a one-family house on Hunting st., owned by Marcello Zinino and occupied by the family of Francis Kahalewic; and one-family house on South st., owned by Ciro M. Belicic.

At least three convictions for violating the lower laws had been brought against the owners of the buildings and the courts had judged them to be common law.

As a result of the Brickbottom drive, Dist. Atty. Bushnell petitioned for padlock proceedings against 13 places in the district.

Ten have been effective, one was dismissed and the remainder are pending.

A wholly unrestricted liquor traffic within five years was predicted by Julian Coffman, present counsel of the Constitutional Liberty League, in an address at the annual banquet of the Margaret Brent Club, held at the Hotel Quincey.

"If we carry on under present arrangement for 10 years more we shall have a very unrestricted liquor traffic in this province, because this tendency is being headed toward qualification," he said.

China, May 21 (AP)—A man partially identified as John Hahn, alleged racketeer with a long record, was found shot to death in an automobile in Ciera, a suburb early today. Hahn was questioned after the slaying of "Big Tim" Murphy, notorious labor leader and racketeer, last year.

Hahn was at liberty on bond pending an appeal from his recent conviction in the Federal court for violating the Sherman anti-trust law. He was convicted of introducing candy jobs into joining a racketeer organization.

NO BROWN 'DRY' SPIES ALLOWED

Providence, May 21—An offer by Deputy Prohibition Administrator John W. Morrill to pay any Brown student who cared to become a "snoper" the sum of \$5 a day has resulted in all Brown students being barred from Providence speakeasies.

Operators of the back room and cellar bars fear that the Brown students may turn over evidence to convict them as Harvard students did in the case of a bootlegger in Cambridge recently.

So far as is known, there was only one applicant at Brown for a "snoper's" job. Harvard had a higher "snoping" average.

Red-Head Irishman Too Much for Bandits

New York, May 21 (AP)—Banks should beware one red-headed Irishman, a lover of Byron's poetry. William Curtin was held up in the hallway of a tenement by two men after he had collected \$200 in bills. He grabbed the gun of one and routed both, shooting one of them. William drives a milk wagon much of the time when not reading Byron.

Record Mackerel Hauls Are Landed

Glooucester, May 21—The mackerel netters have again scored

heavily in the Five Island sector of waters off New York. Working on the tail of the schools, they have made the biggest subsequent strikes of the season, some large fairs being registered among

them being that of the Cape Ann, the highest, with 20,000 pounds. The price at Fulton Market, estimated, was 3 cents per pound. There was not a seiner among them.

WASHINGTON SCANS 'LAW PROBERS'

Washington, May 21 (INS).—The politicians got out their microscopes today and subjected President Hoover's new law enforcement commission to searching scrutiny.

The private views, as well as the public careers and utterances of the 11 who make up the commission, will be examined minutely before the partisans on both sides of the prohibition question get through. For while President Hoover constantly reiterates that this is not a prohibition commission, but a commission to investigate all phases of lawlessness, politically-minded Washington looks at it only through prohibition spectacles.

The first intensive scrutiny of the new commission gave the scrutineers but little for their pains. There are no outstanding anti-prohibitionists on the commission, and neither are there any dregs of the fanatical type, although several of those named have a record of support of prohibition that dates away back.

The off-hand opinion of Washington is that President Hoover did a good job on a difficult assignment. Ten of the 11 members are lawyers of more than ordinary eminence, and all are accounted "judicially minded." The eleventh is a woman sociologist, Miss Ada Comstock, president of Radcliffe College.

Dean Roscoe Pound of Harvard Law School is rated a judicially-minded liberal, with no positive commitments on the prohibition question so far as Washington knows. The same is true of Monte M. Lemann of Tulane University.

Rubber Check Man's Case Put on File

James E. Murnaghan of Belmont at Belmont was arraigned in the third district court, East Cambridge, on a charge of the larceny of \$10.19 from Henry Bloom, proprietor of the Green River Milk Co. Murnaghan pleaded nolo to the charge and the case was placed on file after the defendant had made full restitution to Bloom and paid \$5 court costs. It was brought out in court, today, that Murnaghan gave Bloom a check for \$10.19 which later came back to Bloom from the bank marked insufficient funds. Murnaghan stated in court that he did not realize that his funds were insufficient.

Captain Is Hurt at Firebug Blaze

Captain Charles A. Thompson of Engine 24 was seriously cut about the left hand by flying glass in battling an incendiary fire which did \$2000 damage to a two-story, half-story unoccupied wooden frame dwelling at 70 Hartford street, early today. He was taken to the City Hospital, where his wounds were dressed.

NOTABLES AT FUNERAL OF P. J. KENNEDY

State and city officials, members of the judiciary, and men prominent in political, business and social circles attended funeral services today for Patrick J. Kennedy, president of the Columbia Trust Company, former state senator and representative, and Boston fire commissioner, in the Church of St. John the Evangelist, Winthrop.

A detail of Boston firemen, headed by Fire Chief Daniel A. Bennett, presided over the service at the home in East Boston to the church.

Bolton high mass of requiem was celebrated by the Rev. James F. Leher, with the Rev. Edward Conroy as deacon, the Rev. Thomas J. O'Brien, master of ceremonies, and John A. O'Brien presiding at the organ.

The pallbearers were James T. Fitzgerald, Francis Lally, Alfred E. Wellington, Michael J. Connelly, Edward J. Fennell, Thomas E. Deehan, John A. Lane and Florence J. McCarthy.

Burial was in Holy Cross Cemetery, Malden, where the Rev. Fr. O'Brien officiated at the grave.

Raw Deal Pulled on "Baby Russell"

The only clue to the parentage of a fine two-week-old baby boy found wrapped in a warm bundle and left lying on their back steps could find was a marking on the tiny baby dress, "Loring-in-Hospital, Roy Russell," and the figure "145."

The police were notified and saw to it that the baby was removed to Haymarket Square Relief Hospital.

Now are the Salad Days

To take liberties with a line of poetry—"now, if ever, come salad days." The heavy, solid foods of winter and early spring have lost their appeal. Nature wisely demands a change of diet. Crisp, fresh green things, vegetables and salads, are what the body craves at this time of year. A good salad is one that is tempting to the eye and well fed, Boston ice, clear as crystal, will keep your refrigerator perfectly chilled and will protect perishable, expensive food.

Let's eat
a luscious
chicken shortcake
flaky with Borden's "double-richness"

Tender chicken buried in a smooth cream sauce. Crumbly hot cake. That's chicken shortcake the Borden way—with its subtle cooked-with-cream flavor. Because Borden's Evaporated is doubly-rich—precious cream in every single drop. Made by the oldest and largest milk company in the U.S.A.

(Paste this tested recipe in your cook-book)

Chicken Shortcake Mix and sift together 2 cups flour, 2 cups sugar, 1/2 cup baking powder and 1/2 teaspoon salt. Rub into the dry ingredients 1/2 cup butter and mix to a soft dough with 1/2 cup Borden's Evaporated Milk, diluted with 1/2 cup water. Turn on a floured board and pat or roll out lightly. Put in a round, buttered tin and shape with back of hand to fit pan. Bake fifteen minutes in hot oven. Pull apart in two layers, fill and cover top with creamed chicken.

Creamed Chicken Melt 2 tablespoons butter in top of double boiler. Cook 2 slices onion in the butter five minutes. Stir in 2 cups Borden's Evaporated Milk, 1/2 teaspoon salt and dash of pepper. Pour in slowly 1 cup Borden's Evaporated Milk and 1/2 cup chicken stock, stirring until the mixture is smooth and thick. Cook over hot water ten minutes. Add 2 cups cooked chicken cut in small pieces and 1 tablespoon minced parsley. Cook five minutes longer. Put between layers and on top of shortcake just before serving.

Thrilling Six-Day Novel by a Noted Author

WHAT HAS HAPPENED SO FAR
Kitty Grayson, 18, pretty and
avid for life, leaves business
school and goes to work. She
meets Jimmie Barton, who aids
her when she falls from a bus.
In the office where she is work-
ing, Kitty meets Irma Palmer,
who introduces her to Frank
Hinkler. Irma tells Kitty to be
nice to Hinkler, but Kitty's
thoughts are full of Jimmie.
She tried, however, to forget
him, as she has not seen him
the day of their first en-
counter. Kitty is guest at a
party which Hinkler gives at a
roadhouse. He suggests that
they all go to his bungalow,
and Kitty sees Jimmie Barton,
who tells her not to go. She
tries to get out of going, but
Hinkler insists she give him a
"reason"!

(New Go On With the Story)
CHAPTER 2
"MRS. VAN ALBANY, I am not
tonight especially to go
on my launch, and see my
bungalow," repeated Frank
Hinkler.
"I haven't ever been on a
launch." The wine had mount-
ed—brought a sense of gay ad-
venture to Kitty. Oh, if only
Jimmie Barton hadn't spoken!
She'd avoid him. He could be
ashamed of her, for all she
cared.

But old Frank Hinkler pour
more wine for her. It gave her
such a freedom from this stupe-
fying—such a thrill of gay ad-
venture, like the bubbles spark-
ling in the glass.
"Day plans after you said? Oh,
I don't want to be a killjoy but
by midnight you must get me
home!"

"So early?" His lips twisted re-
flectively.
"Come along then, pretty Cin-
derella, dance with me."
She moved in a dream. Frank
Hinkler danced delightfully.
But this was what he wanted
Jimmie Barton that he showed
nothing with his hand.

At that moment there was the
ring of a violin, and a girl's
voice, sweetly melodious, was
singing: "Jimmie, dear, do let's
at a ball, with the music of a
waltz, and drift over to those woods."
Kitty went white. She saw him
"down the bank with the impor-
tant young ladies, with never
a word to her!"

Her heart contracted. She could
have cried out in her misery. But
she was, she told herself, and
he danced on, flirting with the
other girls.
She was glad when Irma cried:
"Come on, everybody! We're going
to the Water Witch!"

The evening air was soft. The
moon shone brightly. He led
her down a winding path at the
bungalow toward a gleam of silver.

They were almost there when a
turn in the path brought into view
two figures . . . a man and a
woman kissing . . . in each
other's arms.

"Oh, gosh! Let's turn!" gasped
Kitty, in color. The man and
woman turned and looked at her.

BULLET IN BONE TRIAL EXHIBIT
Providence, R. I., May 21—An ex-
hibit of a bullet imbedded in a two-
inch long piece of pelvic bone was
produced today in the murder trial
of Ralph Cianciarulo in superior
court.
Medical Examiner Dr. Clifford
Griffin, who performed an autopsy
on the body of Mrs. Angelina di
Maria, mother of five children, for
whose killing Cianciarulo is being
tried, testified the bullet was one of
two which resulted in her death.
The shooting occurred April 7
last. The defendant is alleged to
have killed Mrs. di Maria and her
husband, Giuseppe, but is being
tried only for the murder of the
latter neighbors and friends of the
family were in the courtroom to-
day.

Niagara Convention Approved by Canada
OTTAWA, May 21 (AP)—The
annual convention of the Niagara
Association of Commerce and Manu-
factures of Canada, held here to-
day, approved the convention signed on
Jan. 2 last for the proposed
Niagara Falls and the Niagara
River.
E. R. Bennett, Conservative leader,
said the questions of utility
and the beauty of the Niagara
River are the primary considera-
tions in the Niagara convention. He
said he was favorably disposed to
ward any action which would in-
crease the power obtainable from
the falls provided their beauty was
preserved.

N. H. Fire Will Increase Stock
Manchester, N. H., May 21.—The
directors of the New Hampshire
Fire Insurance Co. have voted to in-
crease the capital stock of the com-
pany to \$300,000. The new stock
would not be available to the pub-
lic at large. Half of the proposed
increase of capital is a stock issue,
according to Press, Sargent and
the other half would be in the form
of shares and other securities by the
insurance committee.

May 21—The lacrosse team of St. John's College here, which has won 252 straight games since 1909, met one of the hardest schedule undertakings by any college team this season, and it is the leader among the college teams. Among the teams defeated were Johns Hopkins, University of Maryland, and Rutgers, three of the four teams rated at the top of the year, and the M.I.T. Academy in Boston. Johns twelve also performed the feat of winning from Yale, Harvard and Dartmouth by large margins in every case within four days.

Worcester, May 21.—In one of the closest collegiate golf matches ever staged at the Worcester Country Club, May 20, Worcester defeated Worcester Tech, 4 to 2. Two missed putts, both less than one foot from the hole, one on the 13th and the other on the 19th, by Gill at Worcester Tech, and a feat for the Engineers, as Holy Cross then won both holes to win the second tournament of the year.

Big Ed Morris probably will go after the A's here tomorrow. The Alabama boy seems to be about the only one of the Boston chukkers who may be relied on to win.

Russell and MacFadden are good and due to take more than one tight contest before the season ends, but Big Ed is the real hope of the Red Sox.

Charlie Ruffing, ordinarily effective against the Macmen, blew up with a loud bang in the opening day of the series, issuing 10 passes and being picked for eight safety.

"Chick" Hafey of the Cardinals seems to have knocked his own private life in frames and in figurines. A set of "chairs" turned the trick for the two youngsters. He has no trouble. The condition became so serious last year that he was driven when he couldn't stand the end of his bat. Doctors finally flung out that a pair of glasses might help.

Hafey appeared in the training camps this spring wearing "wooden shoes." For a long time he couldn't get used to them while on the bat. Eventually, however, they stopped taking his mind off his work. Then he began to hit with old time velocity.

The Boston College-Providence College baseball game scheduled for this afternoon at Alumni Field C. was postponed on account of the heavy rain. This game, which was very important for Hugh Downs' bat tossers, has been postponed to the time being and will be played some time next month.

The new bridge is being designed by dilapidated "Red Top" and the old farmhouse on the Harvard Reserve is being used as a bluff on the Cambridge side, just opposite the line at the north end of the four-mile bridge. It is of southern colonial type.

An additional building, with a porch, is being built on the grounds of the towing personnel, which is being built just east of the main building.

After One Thomas Treatment

Your scalp tingles with a fresh, healthy feeling even after the first Thomas' treatment! You certainly don't need any more basic and necessary each part of this fifteen year old scalp treatment is and how it can end dandruff, stop falling hair and actually regrow hair where all other superficial imitations have failed. You feel life returning to the dormant source of hair regrowth and the first Thomas' treatment; and within a remarkably short time you see new hair on your scalp. The Thomas' treatment is given only in Thomas' offices, under the direction of skilled specialists who do nothing but examine and treat scalp disorders.

Panchio, the full brother to Old Dutch, which running in the feed laid 15 to 20 for finishing third in the Kentucky Derby, brought Fred Hood \$500, an investment of \$30 in the future of Panchio. Shaw quoted 600 to 1 to win and 150 to 1 third last April, and Hood wagered \$30 straight and \$30 third, or \$15,000 to \$50 and \$500 to \$50.

The Athletics pumped on Charlie in the first spasm and managed to annex three tallies. Then they laid off for five innings to regroup the assault in the seventh session, when a pair of home run homers was chalked up. Reeves tallied for the Red Sox in the third inning.

It took a director with a talent close akin to genius to screen "Alibi." The audience is the test.

The proof of the pudding is in the eating; of a great talking picture, in its coming clean as a picture in dialogue and all its other sounds.
